Homeland ... How much is contained in this word for our hearts. The native land is the land where we were born, where our ancestors sleep in the graves. We respectfully call our country our homeland, and the place where we were born, our native land.

Every person has a place on Earth that he considers his home. Here everything is dear and familiar from early childhood; it is easy to breathe here. It doesn't matter if we have been living in this place since birth or moved long ago - this place is always in our hearts.

Our native land is Donbass. We love its severe beauty, the silhouettes of slagheaps against the sunset sky, flowering apricot branches on a spring day, the mysterious shadows of acacias on a quiet summer night. We love our people, hard workers with broad souls who know how to work and relax well.

Spotlight on Donbass

*Донетчина – извечный мой причал.
Нет для меня милей её и ближе.
Я б пядь этой земли не променял
Ни на богатства, ни на сто Парижей!*

Валерий Герланец

У каждого человека есть место на земле, которое он безгранично любит. Это место, где он родился и рос, где живут его друзья детства, где теплеет на душе от воспоминаний о первой любви и наворачиваются слезы от мыслей о первых потерях. Это место, где он всегда чувствует себя дома. Это его Родина.

Для нас – это Донбасс, Донецкий край.

Донбасс – это земля угля и металла, тяжелой промышленности и современных технологий. Это земля сильных, смелых, трудолюбивых, непокоренных людей.

Донецкая земля явилась колыбелью многих талантливых личностей: художников, композиторов, поэтов, актеров, певцов. Донбасс прославили всемирно известные ученые, мужественные космонавты, великие спортсмены. Нет человека, который бы не восхищался музыкой Сергея Прокофьева и картинами Архипа Куинджи, фильмами Леонида Быкова и песнями в исполнении Анатолия Соловьяненко и Иосифа Кобзона, спортивными достижениями Сергея Бубки и ратными подвигами наших земляков.

Донбасс известен поистине удивительными уголками природы, уникальность и красота которых несравнимы ни с чем в мире. Это соляные шахты, меловые горы, леса Святогорья, застывшая история Каменных Могил. Мы можем бесконечно рассказывать, как цветет ковыль в Хомутовской Степи, как гнездятся птицы в «Меотиде» и описывать сказочные рассветы в ландшафтном парке Клебан-Бык.

Об этом региональный сборник обучающих материалов “Spotlight on Donbass” для 6 класса общеобразовательных организаций, изучающих английский язык на базовом уровне. Необходимость создания сборника была обусловлена отсутствием единого приложения о родном крае к учебнику Spotlight. Сборник создавался в рамках Регионального проекта “Spotlight on the Region” издательства «Просвещение. Иностранные языки».

При составлении сборника учитывался имеющийся опыт учащихся, их социально-культурные особенности, образ жизни, эмоциональное состояние, морально-нравственные ценности, интересы и стремления.

Содержание сборника соответствует тематике материала учебника Spotlight и сборника “Spotlight on Russia” для 6 класса. Региональный сборник состоит из десяти материалов, которые могут быть использованы для проведения уроков о родном крае или как материал для дополнительного чтения:

1. История
 - Юзовка
2. Герои
 - День освобождения Донбасса
3. Любимый город
 - Необычные памятники Донецка
4. Гордость нации
 - Сергей Прокофьев «Петя и волк»
5. Природные явления
 - Ушастый ежик
6. Свободное время

- Парк культуры и отдыха имени Щербакова
 - 7. Железная дорога
 - Донецкая детская железная дорога
 - 8. Зоопарк
 - Контактный зоопарк «Дворик»
 - 9. Грибы
 - Грибы, занесенные в Красную Книгу Донбасса
 - 10. Азовское море
 - Жемчужины юга.
 - Задачи сборника:
 - перенос изученного лексико-грамматического материала в ситуации речевого общения на материал о родном крае;
 - расширить знания учащихся о родном крае: его истории, природе, достопримечательностях, известных людях;
 - воспитывать любовь к родной стране.
- Очередность работы над темами может быть изменена в зависимости от рабочего плана учителя.
- Каждый материал состоит из текста о родном крае и вопросов для обсуждения, которые носят личностно-ориентированный характер. Задание “Activity” является мини проектом, который может выполняться учащимися индивидуально, в парах, или как групповая работа.
- Хочется надеяться, что созданные обучающие материалы будут интересны детям и полезны учителям английского языка.

HISTORY

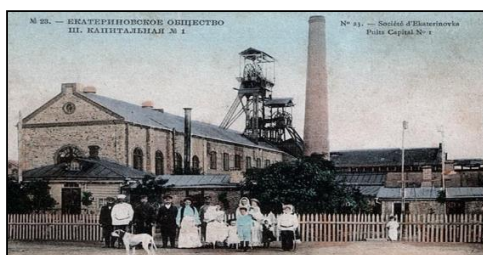

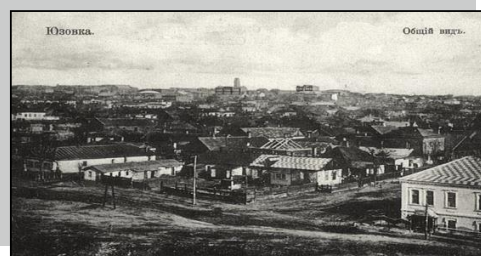

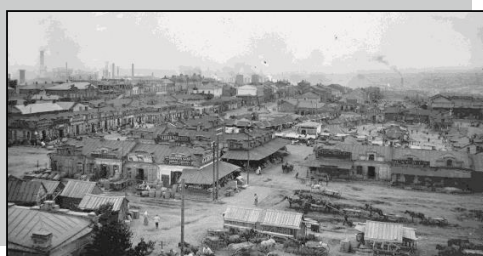

HISTORY OF DONETSK (FORMER YUZOVKA)

(АНИКЕЕНКО НАТАЛИЯ ВЛАДИМИРОВНА, МБОУ «ШКОЛА №60 ГОРОДА ДОНЕЦКА», Г. ДОНЕЦК)

History

On September 8, 2001, near Donetsk National Technical University a monument was erected, devoted to the John Hughes, the founder of the city of Donetsk.

Spotlight on Donbass finds out about the history of Donetsk (former Yuzovka), the capital of the DPR.

YUZOVKA

In 1869, John James Hughes, a British industrialist, bought some land from the Russian prince Sergei Kochubey in the Yekaterinoslav province, on the banks of the Kalmius River, where he built a metallurgical plant with a working settlement near the village of Aleksandrovka. Russia became a second homeland for John Hughes. His family (he had four sons) left their native places of South Wales and moved to a new settlement in the south of Russia. Since then, the working settlement was called Yuzovka.

To take coal, he founded the Novorossiysk Society of Coal, Iron and Rail Industries. About one and a half hundred craftsmen from Great Britain arrived in our area. They settled separately from the Russian workers. Red brick houses with glass verandas were built for them.

The life of English workers consisted not only of work at the enterprise. They went hunting, rode bicycles, played billiards or cricket (later football).

In 1900, under the leadership of Hughes' sons Arthur and Albert, the Hughes Cycling and Athletic Society was established. On March 29, 1904, the English Club was opened at the enterprise. There were 40 members in it in 1914. The metallurgical plant had its own football team. It mainly consisted of English specialists.

Only 164 people lived in Yuzovka in 1870. In 1897 there lived 29 thousand people.

Hughes built a hospital, schools, baths, teahouses, a fire brigade, and an Anglican church dedicated to the patron saints St George and St David.

ACTIVITY

Do some research on the life of Russian workers in Yuzovka. Tell your classmates about it.

DISCUSS

- Can we consider that our city has English roots?
- What places in Donetsk are connected with Great Britain?
- Did English specialists lead a healthy lifestyle?

HEROES

DONBASS LIBERATION DAY

(АНИКЕЕНКО НАТАЛИЯ ВЛАДИМИРОВНА, МБОУ «ШКОЛА №60 ГОРОДА ДОНЕЦКА», Г. ДОНЕЦК)

Heroes

The feat of the Soviet people, who saved the country and all mankind from fascism, serves as an inspiring example for the younger generations.

Spotlight on Donbass finds out about celebration of Donbass Liberation Day in the DPR.

DONBASS LIBERATION DAY

September 8 is one of the brightest dates forever inscribed in the history of Donbass. On this day in 1943, Soviet troops, during the Donbass offensive operation in the Great Patriotic War, entered the city of Stalino (now the city of Donetsk) and continued to liberate our region from the fascist invaders.

September 8 is a big holiday in the DPR - the Day of the Liberation of Donbass from Nazi invaders.

By tradition, the Saur-Mogila memorial complex becomes the main center of celebrations. There is a republican meeting dedicated to the anniversary of the liberation of Donbass. For residents, who want to take part in the meeting, free travel is organized. Buses to Saur-Mogila go from the towns of the Republic: Donetsk, Makeevka, Yasinovataya, Khartsyzsk, Gorlovka, Enakievo, Amvrosievka, Snezhnoye, Starobeshevo, Torez and Shakhtersk.

In Donetsk flowers are laid at the monument to Marshal of the Soviet Union F.I. Tolbukhin, at the monument to the "Victims of Fascism", to the heroes who liberated Donbass: N.F. Vatutin, K.A. Gurov and F.A. Grinkevich. On this day, Donetsk residents and guests of the capital visit exhibitions, presentations and theatrical performances.

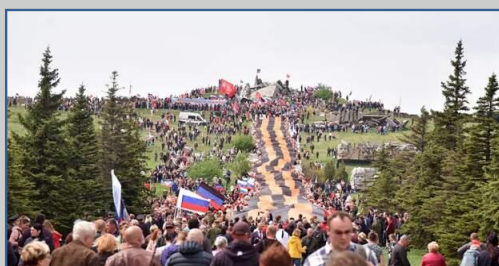

The culmination of the day is a big concert on Lenin Square in the center of Donetsk. Popular singers from Russia perform there.

ACTIVITY

Find out about the life of your family during the Great Patriotic War. Tell your classmates about it.

DISCUSS

- What significant event is celebrated on May 9?
- Why do people still remember this war?
- Why did our people win the war?

UNUSUAL MONUMENTS IN DONETSK

(АНИКЕЕНКО НАТАЛИЯ ВЛАДИМИРОВНА, МБОУ «ШКОЛА №60 ГОРОДА ДОНЕЦКА», Г. ДОНЕЦК)

THE CITY
I LIKE

There are many unusual monuments in different cities of the world.

Spotlight on Donbass visits Donetsk to look at its quaint monuments.

UNUSUAL MONUMENTS IN DONETSK

There are many interesting monuments in Donetsk.

On June 5, 2014 (in the midst of hostilities on the territory of Donetsk), a completely peaceful art object "Friend" was installed on Shevchenko Boulevard in Donetsk opposite the regional administration building. The life-size bronze monument depicts an elderly man in a raincoat and hat, walking along the boulevard and covering the dog from the rain with an umbrella. It symbolizes the devoted friendship of man and animal.

The monument to the insurance agent was created by an artist Igor Makogon in 2005. The sculpture depicts the popular hero of Eldar Ryazanov's film "Beware of the Car", Yuri Detochkin, embodied on the screen by Innokenty Smoktunovsky. The weight of the bronze monument is 350 kilograms, and the height is 195 centimeters. The author chose the moment of the film when Detochkin was entering the room. He is wearing a hat and a raincoat. He has a briefcase in his hands. It seems as if he is about to speak.

The monument was unveiled on November 6, 2010.

The monument to the healed patient was erected in Donetsk in front of the regional trauma hospital in 2001. The authors of the monument are sculptors Pavel Chesnokov and Yuri Baldin. The monument is made of bronze. It is a sculpture of a patient leaving the hospital. The character of the sculpture is a barefoot man dressed in a three-piece suit. He has a handkerchief in his breast pocket. The man has a broken crutch in his hands.

DISCUSS

ACTIVITY

Do some research on the other monuments in our city. Tell your classmates about one of them.

- Have you ever seen the monuments described in the text?
- What other interesting monuments do you know?
- What monuments can be seen in your neighborhood?

NATIONAL PRIDE

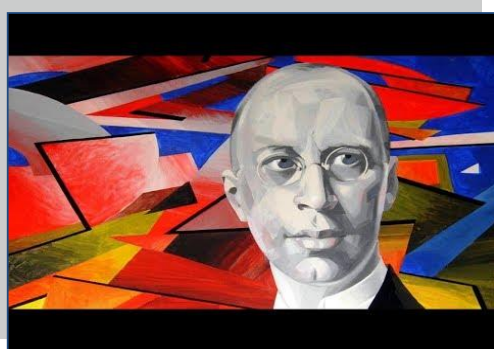

SERGEI PROKOFIEV "PETER AND THE WOLF"

(АНИКЕЕНКО НАТАЛИЯ ВЛАДИМИРОВНА, МБОУ «ШКОЛА №60 ГОРОДА ДОНЕЦКА», Г. ДОНЕЦК)

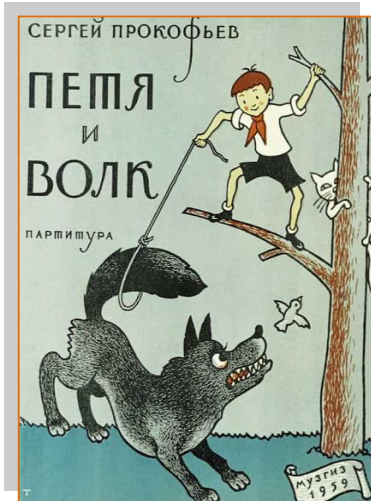

NATIONAL
PRIDE

Donetsk region has become a homeland for many prominent cultural figures. One of them is Sergei Prokofiev.

Spotlight on Donbass presents a symphonic fairy tale by Sergei Prokofiev "Peter and the Wolf".

Sergei Prokofiev is a world famous musician who became famous as a composer and performer of his own works. Sergei Prokofiev comes from the village of Sontsovka, Bakhmut district, Yekaterinoslav province, which is now the village of Krasnoye, Krasnoarmeisky district, Donetsk region. Sergei Prokofiev wrote his first opera at the age of 9. He gave his first concert at the age of 17, and at 27 he toured Europe, America and Japan. One of the most amazing and popular works of the composer is "Peter and the Wolf".

**"Peter and the Wolf"**

Short content: a bird and a duck argued about which of them is a real bird, but they were scared away by a cat that jumped out. Grandfather warns his grandson that a wolf is roaming the forest. Petya grabbed the wolf and, together with the hunters, took him to the zoo.

This musical fairy tale, told by a reader and voiced by a symphony orchestra, teaches kids to recognize musical instruments and introduces their characteristic timbre features. Presenting each character with a certain instrument, Prokofiev skillfully used an oboe for depicting the clumsy duck, a flute for the small bird, a bassoon for the grumbling grandfather, violins for Petya, French horn for the wolf and timpani and a bass drum for the hunters.

"Peter and the Wolf" was filmed by Walt Disney in 1946.

The monument to Sergei Prokofiev in Krasnoye

ACTIVITY

Give the Russian equivalents of musical instruments found in the text.

DISCUSS

- Do you play any musical instruments?
- What sort of music do you like?
- Can you recognize musical instruments while listening to music?
- Have you ever listened to Sergei Prokofiev's "Peter and the Wolf"? Did you like it?

NATURAL PHENOMENA

THE LONG-EARED HEDGEHOG

(АНИКЕЕНКО НАТАЛИЯ ВЛАДИМИРОВНА, МБОУ «ШКОЛА №60 ГОРОДА ДОНЕЦКА», Г. ДОНЕЦК)

Natural
Phenomena

The Red Book of Donbass contains information about endangered animal species. Certain actions must be taken to help animals and not let them die out.

Spotlight on Donbass finds out about the Long-eared Hedgehog

THE LONG-EARED HEDGEHOG

The long-eared hedgehog was discovered in 1770 by the Russian traveler Samuel Gottlieb Gmelin. It belongs to the hedgehog family. The long-eared hedgehog is rather small with a body length of 12 to 27 centimeters and a tail up to 2 centimeters. The weight of these hedgehogs ranges from 200 to 500 grams. They have large ears on their heads up to 5 centimeters long. They eat various small insects. They can be found eating beetles, earthworms, lizards, frogs, and chicks. They can eat fruits, berries and plant seeds.

The eared hedgehog is remarkable for its ability to run quickly, in comparison with other types of hedgehogs. If a predator appears, the hedgehog bends its head and makes hiss sounds. It can prick the enemy with its needles. The hedgehog is active at night. During the night, they can walk about 9 kilometers. In the daytime they prefer to rest or sleep in their burrows. As a rule, they hide in holes specially dug in the ground, under the roots of trees, stones or bushes. Burrows of eared hedgehogs can be up to 150 centimeters deep.

The main enemies of these hedgehogs are badgers, foxes and wolves.

At the beginning of autumn, eared hedgehogs begin to eat a lot to accumulate fat for hibernation. The hibernation lasts from November to April.

ACTIVITY

Do some research on the other endangered animals of Donbass. Tell your classmates about one of them.

DISCUSS

- Have you ever seen the long-eared hedgehog?
- Where and when did you see it?
- What do you think we can do to help these animals?

FREE TIME

SHCHERBAKOV CENTRAL PARK OF CULTURE AND LEISURE

(АНИКЕЕНКО НАТАЛИЯ ВЛАДИМИРОВНА, МБОУ «ШКОЛА №60 ГОРОДА ДОНЕЦКА», Г. ДОНЕЦК)

FREE
TIME

There are a lot of places in Donetsk where you can spend your free time.

Spotlight on Donbass finds out about Shcherbakov Central Park of Culture and Leisure.

SHCHERBAKOV CENTRAL PARK OF CULTURE AND LEISURE

Shcherbakov Central Park of Culture and Leisure is located in the Voroshilovsky district of the city. Here people of all ages can spend their leisure time and relax from everyday worries.

At the entrance from Universitetskaya Street, you will be met by the rope park "Laziness in the Stump". It is a unique set of tasks-obstacles at a height of 1 to 5 meters above ground level. Wooden platforms are fixed on the trees, between which tasks-obstacles of various types of complexity are organized. The park is designed for people of any age and gender who can't sit still, who want to try new sensations and spend time actively, test themselves and overcome fears.

On the territory of the park there is the first city pond with a boat station, a beach and a picturesque promenade from which you can feed wild ducks. Beautiful fountains, artificial mini-waterfalls, interesting sculptures, a colourful rose garden attract citizens and guests of Donetsk.

In Shcherbakov Park there is the only Ferris wheel in Donetsk and a lot of other attractions. Several playgrounds and a glade of fairy-tale characters carved from wood, a family restaurant and summer cafes are popular places for family rest.

Aquapark "Aquasferra" is a favourite place for children and adults. It has many water attractions, a children's water playground, a slow river, a wave pool and two hot tubs.

The park is worth a visit.

ACTIVITY

Do some research on the other parks in our city. Tell your classmates about one of them.

DISCUSS

- How many parks are there in Donetsk? What are they?
- What are the favourite leisure activities of Donetsk citizens?
- What do you like doing in your free time?

RAILWAY

DONETSK CHILDREN'S RAILWAY

(АНИКЕЕНКО НАТАЛИЯ ВЛАДИМИРОВНА, МБОУ «ШКОЛА №60 ГОРОДА ДОНЕЦКА», Г. ДОНЕЦК)

Railway

Many boys and girls dream of driving cars and spaceships. Have you ever dreamed of learning to drive a train?

Spotlight on Donbass finds out about Donetsk Children's Railway.

DONETSK CHILDREN'S RAILWAY

The first Donetsk Children's Railway named after Kirov was opened in 1936 in the Central Park named after A. Shcherbakov. However, during the Great Patriotic War, it was completely destroyed. The new Small Children's Railway was opened in 1972. Impressive stations were built here, as well as a locomotive depot for diesel locomotives.

Today, the Small Children's Railway has two diesel locomotives and five carriages. All carriages have been repaired, modernized and brightly coloured. Trains of the Children's Railway run along the route between two stations - "Pionerskaya" and "Shakhtyorskaya". The duration of the trip is 25 minutes. The length of the route is 2.1 kilometers.

The railway stations are equipped with all necessary technical equipment. Every year, young railway workers and pupils of Donetsk schools have an excellent opportunity to learn to drive trains, work as dispatchers, conductors and switchmen.

There is a museum of the children's railway in the Shakhterskaya station. The museum was opened on June 1, 2006. The museum's collection has more than 1000 exhibits.

It contains uniforms, photographs, souvenirs and gifts from more than 60 Children's Railways of the world.

ACTIVITY

Do some research on the sights along the route of the children's railway train. Tell your classmates about them.

DISCUSS

- What means of transport do you know?
- Have you ever travelled by train?
- What are the advantages of travelling by train,

ZOO

THE PETTING ZOO "DVORIK"

(АНИКЕЕНКО НАТАЛИЯ ВЛАДИМИРОВНА, МБОУ «ШКОЛА №60 ГОРОДА ДОНЕЦКА», Г. ДОНЕЦК)

ZOO

Do you know what a petting zoo is?

Spotlight on Donbass finds out about the petting zoo in Donetsk.

THE PETTING ZOO "DVORIK"

On the third floor of the Republican Shopping Center "Green Plaza" in the centre of Donetsk there is a petting zoo "Dvorik". It has over 40 species of animals: monkeys, crocodiles, raccoons, meerkats, flying squirrels and even an ostrich and a lot of other inhabitants of flora and fauna.

Each animal has its own diet, daily routine and certain living conditions (different modes of temperature and humidity). According to the recommendations of doctors, pets receive vitamins. Some animals that are accustomed to an active lifestyle are regularly taken out for long walks.

Before visiting the zoo, you need to learn the elementary rules of the petting zoo, put on shoe covers, disinfect your hands, and you can communicate with funny friends as much as you want.

In the petting zoo "Dvorik" you can play with different animals, touch and feed them. Food for feeding animals can be bought at the zoo.

Zookeepers love their animals, take good care of them. The cages are always clean and tidy. The motto of the petting zoo is that we are responsible for those we have tamed.

ACTIVITY

Visit the petting zoo in Donetsk. Take a picture or draw your favourite animal. Tell your classmates about it.

DISCUSS

- Have you ever been to the petting zoo?
- What are the rules of the petting zoos? Are they strict?
- Do you think living in a zoo is good or bad for animals?
-

MUSHROOMS

THE MUSHROOMS LISTED IN THE RED BOOK OF DONBASS

(АНИКЕЕНКО НАТАЛИЯ ВЛАДИМИРОВНА, МБОУ «ШКОЛА №60 ГОРОДА ДОНЕЦКА», Г. ДОНЕЦК)

MUSHROOMS

Mushroom picking is a silent hunt.

Spotlight on Donbass finds out about mushrooms listed in the Red BOOK of Donbass.

THE MUSHROOMS LISTED IN THE RED BOOK OF DONBASS

The **steppe morel** is spherical, grayish-brown in colour, 2-10 (15) cm in diameter and 2-10 (15) cm high, hollow inside or sometimes divided into sections. The stipe is 1-2 cm, very short, sometimes absent. It is white, with a cream tint. This mushroom can be very big. It can weigh 2 kg. Steppe morel grows from late March to late April in dry, mostly sagebrush steppes. It's a delicious edible mushroom.

Amanita champignon grows only on the territory of the Donetsk Botanical Garden. It is inedible.

It is forbidden to pick mushrooms listed in the Red Book.

ACTIVITY

Do some research on the edible mushrooms in our region. Tell your classmates about them.

MEMO: HOW TO PICK MUSHROOMS

1. You should never take an unfamiliar mushroom, if in doubt, it is better to leave it or consult with adults.
2. Do not take large overgrown mushrooms. They are harmful.
3. A place for picking mushrooms should not be located near roads and industrial facilities: the farther into the forest, the safer.
4. Pick mushrooms in the morning. It is the best time for this activity.
5. You should never taste raw mushrooms.
6. Twisting and breaking out the mushroom from the mycelium is bad for nature. Use a small knife to cut the stem of the mushroom.
7. Do not use plastic buckets and plastic bags for picking mushrooms. If the trip is long and the weather is warm, then the contents of the bag may overheat and spoil.

DISCUSS

- Have you ever picked mushrooms?
- Can you tell an edible mushroom from an inedible one?
- What kinds of mushrooms do you know? Can you describe them?

THE SEA OF AZOV

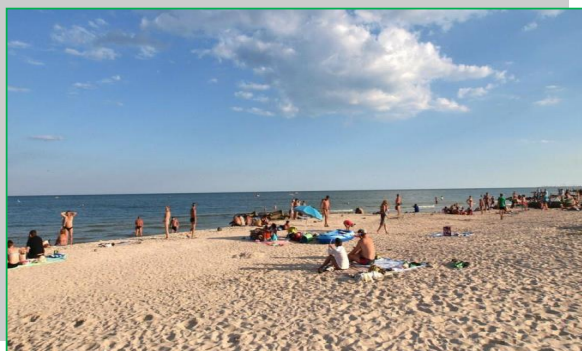

THE PEARLS OF THE SOUTH

(АНИКЕЕНКО НАТАЛИЯ ВЛАДИМИРОВНА, МБОУ «ШКОЛА №60 ГОРОДА ДОНЕЦКА», Г. ДОНЕЦК)

THE SEA
OF AZOV

If you go south from Donetsk South bus station you can
Reach the resorts at the Azov coast.

Spotlight on Donbass takes you to the Sea of Azov.

THE PEARLS OF THE SOUTH

The Sea of Azov possesses unique qualities. The low salinity of its waters in combination with mineral saturation produces an excellent health and cosmetics effect. The soft sands create a feeling of comfort which is typical for the rest at the Azov seacoast. It is especially good for young children. That's why the Sea of Azov is very popular for family holidays.

One of the sights of the coast is the Nature Park "Meotida". Ancient Greeks called the Sea of Azov Meotida. The Park was created in 2005. There are more than 250 species of birds (100 of which build nests), 47 species of mammals, 7 species of reptiles, 5 species of amphibian, 79 species of fish and 1500 species of insects in "Meotida".

The Reservation "Kamennye Mogily" (the Stone Graves) is called "mini-mountain country". Wind and time made a lot of expressive nature sculptures from volcanic rocks. This land was a place of cult for ancient people as the Stonehenge. It is a land of mysteries. There is St. Illya Muromets Chapel and the Memorial Stone Cross built in honour of the battle on the river Kalka 1223.

The coast of the Sea of Azov is a wonderful recreation factor. There are a lot of resorts and children camps in the area.

ACTIVITY

Collect information on another holiday resort in your country. Tell your classmates about it.

DISCUSS

- Have you ever been to the Sea of Azov?
- What did you do there?
- What was your best holiday?

SPOTLIGHT ON DONBASS

ПОЯСНИТЕЛЬНАЯ ЗАПИСКА

Данный сборник предназначен для учащихся 6 класса общеобразовательных организаций, изучающих английский язык на базовом уровне.

Содержание сборника соответствует тематике материала учебника Spotlight и сборника Spotlight on Russia для 6 класса. Региональный сборник состоит из 10 материалов, которые могут быть использованы для проведения уроков о родном крае или как материал для дополнительного чтения.

Задачи сборника:

- перенос изученного лексико-грамматического материала в ситуации речевого общения на материал о родном крае;
- расширить знания учащихся о родном крае: его истории, природе, достопримечательностях, известных людях;
- воспитывать любовь к родной стране.

Очередность работы над темами регионального сборника может быть изменена в зависимости от рабочего плана учителя.

Каждый материал состоит из текста о родном крае и вопросов для обсуждения, которые носят личностно-ориентированный характер. Задание “Activity” – является мини проектом, который может выполняться учащимися индивидуально, в парах или как групповая работа.
