городского округа Химки в формате ОГЭ*

До 1 января 2023 в Химках проживало почти 250 тыс. человек. В январе 2023 года к городскому округу были присоединены новые территории, ранее принадлежащие городскому округу Солнечногорск. Городской округ является одним из самых крупных городов-спутников Москвы. Здесь работает много культурных и развлекательных центров, музеев, библиотек. Архитектурные достопримечательности Химок поражают своим разнообразием. На территории города есть около 20 уникальных храмов, часовен, церквей. Также здесь много памятников и мемориалов. Любителям природы предлагается прогуляться по красивейшим паркам и скверам, посетить знаменитый Химкинский лес и водохранилище

Все, кто однажды путешествовал из Москвы в Санкт Петербург на поезде, проезжал мимо железнодорожной станции Химки, которая была первой остановкой после открытия Николаевской железной дороги в 1851 году. Скоро Химки войдут в единое транспортное кольцо, соединяющее городской округ и Московский метрополитен.

В 18-19 веках на территории современного городского округа появились помещичьи усадьбы, самые известные усадьба князей Долгоруких в Киреево, где в местной церкви венчался П.М.Третьяков и В.Н. Мамонтова, Белые столбы (архитектор Шехтель), в настоящее время там располагается городская больница.

Город Химки в годы Великой Отечественной войны был последней линией обороны Москвы, легендарные Ежи напоминают об этом. Город не зря выбран для установления монумента «Ежи». Во время ВОВ именно эта территория стала рубежом, где немецкие фашисты потерпели поражение, а ведь их целью была столица. 6 декабря 1941 г. советские войска перешли в наступление, постепенно оттесняя войска врага от Москвы.

Химки - это центр космической промышленности, все двигатели к космическим ракетам были построены на предприятиях города.

На территории округа есть образовательные учреждения, которым более ста лет, это Новоподрезковская средняя школа(ныне школа №20 г. Химки), которая была открыта в 1874 году и школа №5, отметившая столетие в 2021 году.

В городе работает школа искусств, которая заняла 1 место в 2022 году среди школ России.

Химкинская картинная галерея - уникальный центр искусства и образования.

Это собрание картин основано на частной коллекции профессора С.Н. Горшина, поэтому галерея носит его имя. С 1991 года любой желающий может ознакомиться с более чем двумястами уникальными экспонатами, среди которых живопись и графика русских художников-реалистов. Кстати, галерея расположена на Московской улице – бывшем Царском тракте, соединявшим деревню Химки со станцией.

Химки – город спорта, футбольный и баскетбольный клубы занимают ведущие позиции в российском футболе и баскетболе.

Каждый понедельник в школах России проводится урок “Разговоры о важном”, который начинается с выноса государственного флага, затем проводится особенный урок, на котором обсуждаются актуальные темы. Один из уроков был посвящен родному краю. Материал, подготовленный педагогами, знакомит учащихся с родными местами на английском языке.

Раздел 2 (задания по чтению)

12

Вы проводите информационный поиск в ходе выполнения проектной работы. Определите, в каком из текстов А–F содержатся ответы на интересующие Вас вопросы 1–7. Один из вопросов останется без ответа. Занесите Ваши ответы в таблицу.

1. Is Alyonka chocolate still popular?
 2. What is the origin of chocolate Alyonka?
 3. Why was chocolate named Alyonka?
 4. What is the composition of the chocolate bar?
 5. How did it all start?
 6. Whose face is on the wrapping of Alyonka?
 7. What kinds of chocolate bars can you buy nowadays?
- A.** Today, Alyonka is still the brand market leader of chocolate in the Russian Federation, as well as one of the most iconic Russian symbols connected with Khimki. The wrapper of the chocolate depicts a blue-eyed girl wearing a traditional Russian head scarf. Moscow’s Red October factory started producing Alyonka chocolate bars in 1966, after being given a livestock subsidy by the government. The rise of the brand was also possible thanks to the political situation, the Brezhnev years (1964 –1982) were considered as a period of prosperity and stability. The factory was provided with good quality milk, thanks to which they produced very tasty chocolate at an affordable price. Its low cost, together with its creamy taste and aroma, made Alyonka the most popular brand of milk chocolate in the USSR.
- B.** We are sure you have seen this face before: in Russians’ imagination this heartwarming picture of a rosy-cheeked little girl has been associated with the brand Alyonka for more than 40 years. But who is this sweet blue-eyed infant? Let’s find it out! Since Alyonka’s managers couldn’t agree on the design of the wrapping, they decided to hold a competition through the Evening Moscow to find the face of Alyonka, after which the iconic picture was selected to be the official face of the brand. In an attempt to find out the real identity of the original little girl, the brand launched an advertising campaign in the 1990s with the title ‘Alyonka, where are you now?’. They found the girl from the wrapping in Khimki. Elena Gerinas, the daughter of the famous Soviet photographer Alexander Gerinas has always lived with her family in this city.
- C.** Even the name “Alyonka” was carefully picked: the managers of the brand stated that they chose it because of the prestige connected to it, seeing as Alyonka was also the daughter of two famous Russian astronauts, Valentina Tereshkova (the first woman to ever go to space) and Andriyan Nikolayev.
- D.** This chocolate is considered to be of high quality and delicious. Due to the fact that from the Soviet period to the present time it has been produced in accordance with strict GOST standards. Russian chocolate Alyonka is a delicacy that is made of cocoa beans. The product has a homogeneous structure with a delicate aroma and sweet taste. The grated cocoa beans, cocoa butter, powdered sugar, milk powder or cream are the only ingredients. There are also natural emulsifiers and flavours in the chocolate "Alyonka". That is why this milk chocolate is a legend in Russian confectionery history, it is an all-time favourite of several generations.
- E.** Despite the collapse of the Soviet Union and the many changes the country’s economy has undergone, Alyonka still stands strong: the brand continues to grow, diversifying its products and exporting any kind of sweet delicacy abroad. In our Internet era the chubby face of Alyonka has increased its popularity, pulling the trigger on an avalanche of memes and photomontages of the iconic infant.
- F.** Whether you are interested in Russian culture or you have a sweet-tooth (maybe both), we suggest you should try these iconic Alyonka chocolate bars. They come in a lot of sizes and flavors. You can choose among bars with nuts, candies or dried fruits. You can easily purchase them on the Internet. Give them a try and let you know which one is your favourite!

CULTURE AND LEISURE PARK OF LEO TOLSTOY

(БОБКОВА СВЕТЛАНА НИКОЛАЕВНА, МБОУ ГИМНАЗИЯ №4 Г.ХИМКИ)

Прочитайте текст. Определите, какие из приведённых утверждений 13–19 соответствуют содержанию текста (1 – True), какие не соответствуют (2 – False) и о чём в тексте не сказано, то есть на основании текста нельзя дать ни положительного, ни отрицательного ответа (3 – Not stated). Запишите в поле ответа цифру 1, 2 или 3, соответствующую выбранному Вами варианту ответа.

Culture and Leisure Park of Leo Tolstoy

Khimki is a green city with several parks. The biggest one is Culture and Leisure Park of Leo Tolstoy or Tolstoy Park as citizens call it for short. The part of land on which the park is located was used for recreation for a long time. The land with an oak grove originally belonged to an engineer Dubiago who often hosted the famous Russian writer Leo Tolstoy at the end of the 19th century. Later in 1947 the park was named after the writer.

Tolstoy Park is a large parkland. It is bounded to the east by the Moscow Canal. The Moscow - Saint Petersburg Railway is to the south of the park. To the west and the north there is an urban area of blocks of flats.

Tolstoy Park is open to the public during the day. You can visit the park and see different places of interest. While walking along the treelined paths, you will come across a number of attractions. As you head down the central alley, you will see the statue of Leo Tolstoy on your left. There is an open-air stage used for literary, music and dance evenings not far from the Ferris Wheel. If you go farther, you will find yourself in a little park of stones. There you have a chance to read Leo Tolstoy’s thoughts about life. The park includes Covcheg Petting Zoo with more than 30 species of animals and birds. There are 2 zones of amusement rides for children and adults on the area of the park.

The main park of Khimki is popular with people of all ages. There is a wide selection of activities for all fitness levels and abilities. For fitness freaks there is a sports centre with a special weights room. Absolute beginners can experience on several workout grounds. The park has bicycle paths and grounds for such extreme sports as skateboarding, rollerblading and BMX racing. If you are fond of tennis, you can play it outdoors or attend tennis classes in Alexander Ostrovsky Academy. You can relax sunbathing on the beach in summer or walk along the embankment with panoramic views all the year round.

When you get hungry, it is possible to grab a snack in the food-truck court, stop for a quick coffee, eat pizza or enjoy a long meal in one of the cafes. In summer you can rent one of the barbeque zones and have a picnic in the park.

The Museum Complex Artishock was founded in the park in September 2018. There are 10 halls for touring exhibitions and permanent expositions of small and big collections of art, architecture and graphics. The highlight of the museum is the Book of Remembrance which contains unique archival materials and records about The Great Patriotic War and its veterans.

Tolstoy Park is a very popular park in Khimki, created during the Soviet period as a hub for relaxation and cultural activities. The park is beloved by citizens of Khimki and tourists, who visit it in all seasons to stroll, enjoy sports, admire the park’s attractions and attend cultural events. Free entrance, wi-fi coverage, newly designed recreation zones make Tolstoy Park a true centre of city life and a point of attraction for youth and families.

- 13 Tolstoy Park was originally a recreation zone with an oak grove.
1) True 2) False 3) Not stated
- 14 The park is located in the centre of Khimki.

FC KHIMKI

(ГЕГЕНЯ ЭЛЬВИРА АЛЕКСЕЕВНА, МБОУ ЛИЦЕЙ № 10 Г. ХИМКИ)

Задание 12. Вы проводите информационный поиск в ходе выполнения проектной работы. Определите, в каком из текстов А–F содержатся ответы на интересующие Вас вопросы 1–7. Один из вопросов останется без ответа. Занесите Ваши ответы в таблицу.

1. What location in Khimki belongs to the club?
 2. How did the team's early way to success look like?
 3. Where can young people train to become professional football players?
 4. What was the reason for changes happened to the team in the 2000s?
 5. What is the latest news about the club?
 6. When did FC Khimki appear?
 7. When did the team managed to return to the RPL?
- A. FC Khimki is probably one of the most recognized Russian professional football club of Moscow region. The team was formed in 1996 by merging two amateur clubs from Khimki (Rodina and Novator). First, FC Khimki played in the amateur league. A year later, they had their first official match. Of more than 150 amateur teams in the competition, FC Khimki won the tournament, beating Energiya Ulyanovsk in the final match in the penalty shootout, and, as the champions, were promoted to the Third League.
- B. The club's promotion was fast and impressive. In January 1997, FC Khimki became a professional football club. In the Third League regional tournament, the team managed to finish second and were promoted to the Second League. Three years later, after the 2000 season, FC Khimki were promoted to the First Division. They finished first in the Centre zone of the Second Division, but lost the promotion play-off to Severstal team on away goals. By lucky chance, Severstal team refused to play in the First Division, thus their place was given to FC Khimki.
- C. After joining the First Division, the team was constantly in a fever. The coaches and the club's management changed in no time. In the 2005 season, the club reached the final of the Russian Cup, where they lost to the Moscow army team in a bitter struggle. Two rounds before the final of the championship, it became clear that the team was unable to reach the big leagues. Andrey Chervichenko, the vice-president and a co-investor of FC Khimki, was to leave the club. A large group of players left with him, as well as the head coach, Pavel Yakovenko. The club had almost completely changed the squad of players.
- D. In 2005, the team had a very good series in the Russian Cup, reaching the final. Nevertheless, in the final match they lost 0-1 to CSKA. The next decade was hard for the club, not reaching any impressive results, but in 2018 they finally returned to the Russian Premier League. In the 2019-2020 Russian Cup they reached the final again. Later, they were promoted to the RPL for the 2020-2021 season, returning to the top tier after an 11-year hiatus.
- E. FC Khimki has its home stadium called the Arena. The stadium holds 18,636 spectators and was opened in 2008. It is the largest stadium in the Moscow region. The stadium is the first in Russia to use Dutch lawn care technology. The best European football clubs like Real Madrid, Arsenal, Chelsea, Ajax use the same technology for their pitches. Besides Russian Premier League matches, the stadium hosted Champions League Matches (Dynamo-Celtic), European League Matches, and the Russian Cup final in 2009.
- F. FC Khimki is open to young and talented football players. One way to join the team is to enter the Olympic Reserve Sports School in Khimki which trains football players for professional teams. Children get experienced coaches and all the facilities needed for the best training there. The most gifted and promising players of the school are enrolled on a competitive basis in the youth team, and then in the main team of FC Khimki.

A COLLECTOR BY CALLING

(ГЕГЕНЯ ЭЛЬВИРА АЛЕКСЕЕВНА, МБОУ ЛИЦЕЙ № 10 Г. ХИМКИ)

Задания 13-19. Прочитайте текст. Определите, какие из приведённых утверждений 13–19 соответствуют содержанию текста (1 – True), какие не соответствуют (2 – False) и о чём в тексте не сказано, то есть на основании текста нельзя дать ни положительного, ни отрицательного ответа (3 – Not stated). Запишите в поле ответа цифру 1, 2 или 3, соответствующую выбранному Вами варианту ответа.

A collector by calling

Sergei Nikolayevich Gorshin was born a collector. He grew up in a village near Kazan, surrounded by the beauty of nature. As a child, he collected herbariums and bird eggs. After graduating from the University, Gorshin moved to Khimki to work at the Woodworking Research Institute as a chemist. During the war years, he was evacuated to Novosibirsk, where he developed chemical compositions for processing the wood for the aircraft interior, which slowed down the combustion process. His developments helped save many lives during the war.

In 1945, in Novosibirsk, his friend, an amateur artist, took him to an art exhibition. There Gorshin bought his first painting by the Soviet artist Anastasia Sokolova called ‘Roses Against the Mountains’. That’s how his passion for art collecting started. At the same time, Gorshin himself never painted - except that he tried to study in an art studio as a child. Since he was a very demanding person, he realized that he would not be a brilliant artist, and abandoned his occupation.

Where did a Soviet person get the money to buy paintings? Sergei Nikolaevich received large bonuses for his brilliant inventions, royalties for monographs - he wrote 14 of them. His life was ascetic. A two-room flat with high ceilings was turned into a storage - paintings were here everywhere except for the bathroom and kitchen. The ideal temperature for storing art is from +18°C, so Gorshin maintained such a chilly temperature. The paintings were his children, and thanks to his care they have all been preserved in good condition.

In 1989, an exhibition of the Gorshin collection opened at the Tretyakov Gallery. The transfer of Gorshin's collection to Khimki began three years later, and on December 24, 1993, the gallery opened its doors to visitors. Gorshin was offered the third floor of the Khimki administration building, and he agreed. The exhibition has been located there for over 25 years. Gorshin donated 203 works to the local gallery.

Transferring the collection to Khimki was a conscious decision by Gorshin. He said that every small town in the country should have its own art gallery. Art cannot belong to one or several people, it must belong to the people. Gorshin was a man of science and realized that his life would end once. And the collection, to which he dedicated 50 years, will live on.

- 13. Sergei Nikolayevich Gorshin was born in Khimki.
1) True 2) False 3) Not stated
- 14. Gorshin was an amateur artist.
1) True 2) False 3) Not stated
- 15. Gorshin bought the first painting for his collection in Novosibirsk.
1) True 2) False 3) Not stated
- 16. Gorshin gave up painting before he started to collect arts.
1) True 2) False 3) Not stated

GEORGY NIKOLAEVICH BABAKIN

(ГЕГЕНЯ ЭЛЬВИРА АЛЕКСЕЕВНА, МБОУ ЛИЦЕЙ № 10 Г. ХИМКИ)

Задания 13-19. Прочитайте текст. Определите, какие из приведённых утверждений 13–19 соответствуют содержанию текста (1 – True), какие не соответствуют (2 – False) и о чём в тексте не сказано, то есть на основании текста нельзя дать ни положительного, ни отрицательного ответа (3 – Not stated). Запишите в поле ответа цифру 1, 2 или 3, соответствующую выбранному Вами варианту ответа.

Georgy Nikolaevich Babakin

For many years his last name and his whole life was classified. He signed scientific articles as 'Nikolaev', went abroad as 'a professor of the Space Research Institute'. Still, as the Chief Designer of the Lavochkin Design Bureau, Georgy Nikolaevich Babakin managed to send 15 spacecrafts on long journeys to the Moon, Venus, and Mars!

On January 31, 1966, the Moon-9 spacecraft was launched. Three and a half days later, the automatic station - the first in the world - made a soft landing on the surface of the Moon in the region of the Ocean of Storms. Georgy Nikolaevich was awarded the title of laureate of the Lenin Prize. But awards and academic degrees were of little concern to him. His only full-time professional education was a 6-month course for radio technicians. Already a senior research designer, technically he still was a student. He studied at the Correspondence Institute of Communications for 20 years and received an engineering degree at the age of 43.

Georgy Nikolaevich was a really hard-working person. He worked fifteen to eighteen hours a day, giving himself to the cause entirely and without a trace, literally burning himself at work. Busy days were followed by sleepless nights, time was sorely lacking. He was always the first to arrive at the Design Bureau and the last to leave it. Here are the lines from his diary: 'I have to work hard. I left home for the last time on June 25 on Monday, and returned tonight on June 27. I slept for no more than an hour and a half during this time'.

His hard work bore fruit. The moon rover successfully delivered lunar soil samples to the Earth. Under his supervision, the soft landing on Venus was made, and later, after his death, the same landing of the Mars-3 station was finally carried out. All these achievements were the first in the world. An outstanding scientist and talented designer in the field of space technology, a prominent specialist in automatic control and testing systems, without which the operation of spacecraft is unthinkable, Georgy Nikolaevich Babakin left a noticeable mark on the history of the development of Soviet science. Craters on the Moon and Mars are named after him.

13. The scientist's real last name was Nikolaev.

- 1) True 2) False 3) Not stated

14. Moon-9 softly landed on the Moon in 1966.

- 1) True 2) False 3) Not stated

15. The title of laureate of the Lenin Prize was the highest award given at that period of time in the USSR.

- 1) True 2) False 3) Not stated

Запишите в поле ответа цифру 1, 2 или 3, соответствующую выбранному Вами варианту ответа.

Sheremetyevo Airport

For a long time, Sheremetyevo Airport was called the country's Air Gate. Indeed, in the Soviet Union it was the only major international airport connecting Moscow with 122 cities in 97 countries of the world. The official date of birth of Sheremetyevo International Airport is August 11, 1959: on this day, the first Tu-104 airliner landed at the airport, delivering passengers from Leningrad.

The airport was built for a long time and not easily. It was originally intended for military purposes, but later became a civilian airport. The airport got its name from the nearby village "Sheremetyevo".

Today it is the busiest airport in Russia, as well as the second busiest airport in Europe. Sheremetyevo Airport consists of 6 passenger terminals: A, B, C, D, E, F, and also a cargo terminal. The airport also has its own museum. It is located in Terminal F. There are more than two thousand exhibits in the museum's funds. The most valuable items in the museum's exposition are the general plan and the banner of the airport, historical measuring instruments, documents and photographs. The airport also publishes its own newspaper, which describes news and interesting facts related to the airport. The newspaper is produced for the entertainment of passengers. More than 300 films were shot at the Sheremetyevo Airport, including the famous first Soviet disaster film "Crew", as well as the film series "Men's Season". The filming of the movie series was conducted on the runway, operating in normal mode.

Sheremetyevo Airport is the only one of the capital's airports that has its own kennels for breeding service dogs, which are necessary for the fight against terrorism.

In 2018, the contest "Great Names of Russia" was held, in which Russian airports were given the names of outstanding personalities from the history of our country. About 6 million people took part in the voting. According to the results of the vote, Sheremetyevo was given a second name – Pushkin, in honor of the great Russian writer. But the second name is hardly used nowadays.

13 The construction of Sheremetyevo Airport began on August 11, 1959.

Spotlight on Russia decided to find out beautiful places in Khimki.

One of the best tradition in Russia is investing in culture. The Art Gallery is named after Sergei Nikolaeyvitch Gorshin who lived here since 1947. He loved art and collected about 280 paintings and sketches. There were works by some famous Russian artists and unknown painters.

Professor Gorshin is represented his collection in the Tretyakov Art Gallery in Moscow. The project was very successful. After that Sergei Nikolaeyvitch donated the collection to the town of Khimki, Moscow Region in 1990. In his dictionary of the period we can find the following lines:

“To you, my town so dear to me
I give my love, my picture gallery.”

Gorshin was very careful in choosing the place for the pictures for them not to loose their beauty. The Art Gallery became a very large room on third floor at the town hall. Nowadays there are about 13 thousand of art works: landscapes, sketches, portraits, drawings, sculptures, illustrations. Visitors can enjoy masterpieces by I. Levitan, A. Vasnetsov, I. Aivasovsky.

One of A. Savrasov’s picture is “ Winter. Evening”. It attracts great attention. It’s a landscape. In the foreground is a well powdered with ice and some high trees. Next to it is a small wood house with brown chimney they are covered white snow. The sky is playing with different kinds of fairy-tale colours: yellow, blue, orange, purple, pink.

This painting is very peaceful and romantic.

A FAMOUS ESTATE

(КОЗЬМИК ОЛЬГА ВАСИЛЬЕВНА, МБОУ СОШ №8 ИМ. В.И. МАТВЕЕВА, Г. ХИМКИ)

Прочитайте текст. Определите, какие из приведённых утверждений 13–19 соответствуют содержанию текста (1 – **True**), какие не соответствуют (2 – **False**) и о чём в тексте не сказано, то есть на основании текста нельзя дать ни положительного, ни отрицательного ответа (3 – **Not stated**). Запишите в поле ответа цифру 1, 2 или 3, соответствующую выбранному Вами варианту ответа.

A famous estate

This late spring morning was not sunny but rather warm. We had always wanted to go to this place alone, without noisy groups of tourists and blazing heat of sun. Our guide Mary welcomed us to the estate, and we went on a slow and lazy walk, listening exciting stories about the past...

The estate had many owners during its long history. Some of its inhabitants and visitors are well-known persons. Here a famous politician P. A. Stolypin spend his childhood and, moreover, the place was also mentioned in M. Lermontov's poems and dramas. He was not born there, but his famous grandmother took little Misha to her brother's place and – as a child – he spent some summers there developing his poetical talent. The beautiful views and romantic parks of Serednikovo were carefully captured in some of his works in a rather romantic mood – for Lermontov it was a place of his first love and true friendship.

The last owner of the estate was V. I. Firсанова who made a lot of effort to turn this place into a really attractive location. She built a railway station that is located near Serednikovo and commemorated the legendary poet by erecting a monument near the window of his room. During her time many famous people including singers, composers and painters visited the estate and even stayed there for some time like K. Yuon who even bought some of the land to build a small house and married a local woman.

After the revolution it became the state's property and was used as a place to have a rest by the political elite. Even Lenin stayed there in 1919. However, in the end of the 20th century the estate was abandoned. Lermontov's distant relatives changed the situation for the best, organizing the restoration of the buildings and making it a popular place for tourism. Many popular films were shot there and even a real cinema-town Pilgrim Porto is nearby...

13 The visitors came to the estate for an excursion

Раздел 2 (задания по чтению)

12

Вы проводите информационный поиск в ходе выполнения проектной работы. Определите, в каком из текстов А–F содержатся ответы на интересующие Вас вопросы 1–7. Один из вопросов останется без ответа. Занесите Ваши ответы в таблицу.

1. Where can we see the 18th century manor house?
 2. Which shopping center do citizens choose?
 3. What divides Khimki in two parts?
 4. Where can you see the sculptures?
 5. Where can you learn music, art and dance?
 6. Where are the greatest holidays celebrated in the city?
 7. What famous artists are represented there?
- A.** Khimki is one of the largest cities of Moscow, founded in 1939 and located northwest of the capital. It is situated on the bank of the Moscow-Volga Canal, separated from it by the Moscow Ring Road (MKAD). The population of Khimki is more than 200 thousand people. Today Khimki is the third most populous city near Moscow after Balashikha and Podolsk. The territory of the city of Khimki is crossed by Leningradskoye highway and is conditionally divided into two parts: Old and New Khimki.
- B.** You can't say that you've been to Khimki if you don't go to the famous Art Gallery named after S. N. Gorshin. This Art Gallery in the center of Khimki appeared thanks to the scientist Sergey Gorshin. Being a collector of works by little-known Russian artists, Gorshin wanted to return the forgotten names of the masters and donated many valuable collections to the museum, which was later named after him. Nowadays the gallery features works of Russian artists such as Aivazovskiy, Makovskiy, Polenov, Sobolev and many others.
- C.** For tourists visiting Khimki is necessarily to get in Serednikovo Estate. It is the greatest manor with a beautiful park. Once it belonged to Lermontov as well as to other famous people such as Tretyakov

ЗАДАНИЯ ПО ЧТЕНИЮ

(МАЗУРОВА Е.С., Г. ХИМКИ)

and Prokhorov. Serednikovo Estate is a very elegance and a classical 18th century manor with the romantic pond and canals around.

- D. There are several parks in Khimki, but the best one of them is the park named after Leo Tolstoy. It is very beautiful and always full of people. Everyone should admire the lovely fountain and ride on an amazing big wheel. There are also different kinds of concerts and performances for children and adults here. Teenagers often come to the park in the evenings to play tennis or ride their bikes. When there is any celebration in our town, it's always here in the park.

- E. Khimki lives a rich cultural life. You can find different venues for people of different ages here. There are huge varieties from art and craft studios for children to museums and art galleries. One of the places is the museum of sculpture gallery 3D. It was opened on the 18th of May in 2009 in the center of Khimki in Chapaeva street. The collection of the museum includes works of famous Russian sculptors but in addition to sculpture, the museum presents a collection of paintings of different artists.

- F. The central art school is the landmark of the city of Khimki. It educates students, gives them basic knowledge in art. Concerts, exhibitions, competitions are held at the school. Famous artists come to master classes for students. The teachers are all professionals, they treat children kindly, try to interest them, captivate them with the subject. The excellent quality choirs and dancing groups represent Khimki not only in our town but also abroad.

“THE INTELLIGENT LIBRARY in KHIMKI”

“The intelligent library” - is a modern biblio centre and innovational space of knowledge and intellectual leisure in the Central city library. “The intelligent library” is an integral part of the social and cultural life of Khimki residents. The library is located on 13, Kalinina Street. This library is regarded as a public space that does not discriminate against anyone and strives to create the most comfortable conditions for each user. Its space is a continuation of the public urban environment. The library exterior and internal visual and aesthetic qualities are conducive to stay in it and a barrier-free environment provides comfortable services and movement between premises. The zoning is made according to «intelligent» system (reasonable inter-functional approach).

The technical equipment of the library is really unique! There is a special electronic book delivery desk to take books on your own if you have a reader’s card. The co-working zone is equipped with monoblocks with web-camera, keyboard, headphones and computer mouse to work and study our visitors without being distracted by noise and conversations.

The library has got a cosy cinema hall with 20 seats where we can watch films and hold lectures, creative evenings and business events. We have a photo studio equipped with studio and professional cameras, a quadcopter for aerial shooting, a thermal press for printing images on T-shirts, a recording studio equipped with DJ controller, MIDI keyboard, a laptop with professional headphones to create audio tracks and mixes.

Our visitors can fly to the moon or get into the Van Gogh painting through the usage of VR-glasses set. Our LEGO robots are used in robotics and programming classes. And of course, we can offer everyone’s favorite Interactive Sandbox and Interactive Floor in order to develop and teach children during the game.

13 The Intelligent library is located on Kirova Street.

FOCUS ON EXAMS. ХИМКИ REGION. ОГЭ. ЗАДАНИЕ К РАЗДЕЛУ 2

(ПАНКРАШКИНА АННА АЛЕКСАНДРОВНА, МБОУ ЛИЦЕЙ №15, Г. ХИМКИ)

Раздел 2. Чтение.

12 Вы проводите информационный поиск в ходе выполнения проектной работы. Определите, в каком из текстов А–F содержатся ответы на интересующие Вас вопросы 1–7. Один из вопросов останется без ответа. Занесите Ваши ответы в таблицу.

1. Where can find the heroes of Khimki?
 2. How can travellers know about the cultural heritage?
 3. Where can we find the mysterious route?
 4. What is the symbol of mercy?
 5. What made this place popular?
 6. Which structure has been tested by time?
 7. What is the symbol of medicine?
- A. This building is a symbol of Khimki. In height, it is the lowest among the bridges in Russia. The design is very unusual and it attracts the interest of tourists. Recently, the bridge was overhauled, as its service, life has expired, and more than 70 years have passed since its construction. The bridge was built in short time of the last century, but it was able to survive for a long time.
 - B. This place is interesting for tourists too. Alley appeared in 2011, but has already gained its popularity, among as native citizens of the city as its guests. It is located on the boulevard space, where you can take a walk and look at the monuments of S. Lavochkin, P. Grushin, and V. Glushko. In the evening, each monument is illuminated. A beautiful place for both daytime and evening walks.
 - C. Locals love and appreciate this place for its virgin beauty. Many guests of the city also like to visit the Barashkinsky pond. There is a wonderful fountain with illumination there. In the evening, it illuminates the surrounding nature, making the appearance of the pond magic and unique.
 - D. This monument was opened in 2005. It is located in the square named after Maria Rubtsova. Walking around the city, guests like to visit this place. The monument represents a nurse who is holding a wounded soldier in her arms. An interesting place for those who are fond of historical events related to the Second World War.
 - E. The collection of works by Soviet graphic artists and painters was opened in 1993, donated by Professor S. N. Gorshin. Since then, the vernissage funds have been replenished. Nowadays there are about 13 thousand storage units in it. In particular, the exposition presents canvases by I. Shishkin, K. Makovsky, A. Savrasov, I. Levitan, I. Aivazovsky, M. Saryan, works of Russian sculptors. The gallery has a wonderful collection of rare books on art. There is a wonderful collection of postcards, which presents more than 11 thousand exhibits.
 - F. It is one of the youngest theatre in the Moscow region, founded only in 1996, managed to earn recognition from local fans of Melpomene. The secret to the popularity of "Our House" is quite simple. Performances of the theatre attract novelty, improvisation with bold creative experiments. Talented actors play brightly, creating colorful acting on the stage for both adult and children's audiences. The repertoire of the theater is various. Classical and modern plays are staged here successfully.

Запишите в таблицу выбранные цифры под соответствующими буквами.

Sergey Nikolaevich Gorshin was born in 1908 in the village of Bulgakovo near Penza. In 1920, the Gorshins' moved to Saransk. At this time, Sergey Nikolaevich became interested in natural sciences for the first time, attended a drawing school. In that time, he began to form a collection of reproductions and postcards. After graduating from the high school, Sergey Nikolaevich entered Kazan University, and then he moved to the Kazan Forest Institute. As a student, he was enrolled as an employee of the Kazan Experimental Forest Station. In 1931, he was appointed head of the Mari Forest Expedition. Then, in 1932, Sergey Nikolaevich moved to Moscow to work as a senior researcher at the Institute of Forest Cultures. In 1935, Sergey Nikolaevich moved to Khimki and became the head of the Wood Protection laboratory.

From 1941 to 1947, S.N. Gorshin lived in Novosibirsk and worked at an aircraft factory. He got acquainted with the artist Anton Bright and bought his first painting "Window. Roses against the background of mountains" by Sokolova, later "Morning in the Ust-Narva Bay" by Bilibin and a sketch for the painting "Kissing Rite" by Makovsky. In 1947, S.N. Gorshin came back to Khimki and resumed his scientific work. In 1948, the Academy of Sciences awarded S.N. Gorshin the Prize of the Year. In 1950, he was invited to the countries of Europe, Asia and Africa as a participant in international conferences on wood protection. In 1970, Sergey Nikolaevich was awarded the degree of Doctor of Technical Sciences and the title of professor for the preparation of 13 candidates of sciences.

During 70s, he also conducted an active collecting activity to create a collection of realistic paintings and graphics by Russian artists of the second half of the XIX - first half of the XX centuries. In 1982, the first donation of two portraits to the V.K. Byalynitsky-Birul Museum in Mogilev took place. In 1988, S.N. Gorshin became a member of the Collectors Club and took an active part in exhibitions of the Soviet Cultural Foundation in the country and abroad. In 1986, Gorshin announced to the Union of the Cultural Foundation his intention to donate 110-150 works to the city of Khimki to create an art gallery. In 1990, there was an exhibition of paintings intended as a gift to the city of Khimki.

In 1991, the Khimki Art Gallery began its work. In 1992, he donated 60 works to the State Tretyakov Gallery. At the age of 85, Sergey Nikolaevich retired. For more than 60 years of experience, he has published more than 300 printed scientific papers, 10 monographs, 40 scientific inventions. On December 24, 1993, the grand opening of the Khimki Art Gallery took place. S.N. Gorshin was its founder, scientific supervisor and trustee.

In 1996, the presentation of the Khimki Art Gallery catalog and the last public appearance of S.N. Gorshin in the gallery took place. S.N. Gorshin donated 203 paintings and graphics by Russian artists of the XIX - XX centuries to the city of Khimki, about 500 volumes of books on fine art and 11,000 reproductions from paintings.

In 1997, Sergei Nikolaevich Gorshin died. The Khimki Art Gallery was named after S.N. Gorshin.

- 13 In the childhood, Sergey was fond of mathematics.

PARKS IN ХИМКИ / РАЗДЕЛ ГРАММАТИКА

(КУЗНЕЦОВА ТАТЬЯНА АЛЕКСАНДРОВНА, МБОУ СОШ №20, Г.ХИМКИ)

Прочитайте приведенный ниже текст. Преобразуйте слова, напечатанные заглавными буквами в конце строк, обозначенных номерами **20-28**, так, чтобы они грамматически соответствовали содержанию текста. Заполните пропуски полученными словами. Каждый пропуск соответствует отдельному заданию **20-28**

Parks in Khimki

There are a lot of parks in Khimki. It is one of the greenest towns in Moscow region.

20 The ONE

park that appeared in town in 1947 was the park named after Leo Tolstoy.

21 Before the revolution it OWN

by a famous Russian engineer Dyubyago, who gave the land and his dacha to the Soviet power.

22 Why NAME

after Leo Tolstoy? Leo Tolstoy visited Dyubyago and stayed at his dacha and even went hunting in the nearest forest. At the moment the park is under construction and will be opened in summer 2023.

23 In 2016 a new park OPEN

and called Eco-bereg(eco-shore), the most significant feature of this park is wooden path, which is more than 2 kilometers.

24 It also INCLUDE

skate park and pump track.

25 In December 2017 due to the project “Our forest, plant a tree” citizens VOTE

through the Internet for new walking zone called “Two shores”.

26 There is a special park worth VISIT

called “Dubki”(Oak trees). You can see there old and new oak trees and benches under them.

27 If you are a sport fan, you will DEFINITE

go to Yubileiny park, which is in the center of the town. Here is the largest skating rink in Moscow region. More than 200 people can skate here at a time.

28 If you NOT GO

to any of these wonderful places, please find time and enjoy your walk.

54. *Sights in Khimki (Долгова Елена Юрьевна, МАОУ Лицей №13 (АКЛ), г. Химки)*

Hello Daniel,

Thanks for your e-mail. It's great to hear from you again. I'm very excited about your trip to Russia.

Now I have some free time and can answer your questions. In Khimki the weather is usually warm and sunny at the end of July. There are a lot of interesting places in the town to visit. I would like us to see the Monument "Ezhi", Art Gallery, Tolstoy Park, Arena Khimki, theatre and many others. Also, we can try the local cuisine at the café "Teremok". Well, I think you really need a camera to bring with you because you'll take fantastic pictures.

Write again when you have time

Best wishes,

Elena

55. *Winter Entertainment in Khimki (Морозова Ирина Евгеньевна, МБОУ СОШ №27, г. Химки)*

Dear Sandra,

Many thanks for your email. I hope you're OK.

In your email you asked me about winter entertainments in my home town Khimki. Well, here in Khimki we have a great choice of winter entertainments: tube slide, skating rink, ski run and hockey rink. If you like skating, you can spend your leisure in the "Theatre" skating rink. It's the most popular form of winter entertainment because you can train your skating skills and enjoy a miracle atmosphere there. As for me, I often visit winter entertainment places in Khimki and I would advise you to join me.

That's all for now. I can't wait to hear from you again.

Best wishes,

Katya

56. *Khimki Region Sights (Панкрашкина Анна Александровна, МБОУ Лицей №15, г. Химки)*

Dear Ben,

Thank you for your recent email. It was nice to hear from you. Sorry, I haven't written earlier but I was busy with my exams.

In your message, you asked me about monuments of my city. Certainly famous monuments of Volgograd are the Motherland Calls and the Remembrance of Generations. However, my

favourite monument is the massive statue of Lenin near the river Volga. The monument was listed in the Guinness Book of Records. Besides, Lenin was the great part of Russian History. We can be proud of our History. That's why we celebrate Victory's Day every year. We make festive concerts, parades and reconstruction.

I've to go now and prepare for my exam. Write back soon,

Best wishes,

Ann
